DIRECT DRIVE CHAIN SAW

This new Homelite EZ chain saw combines all these features to give you more cutting for your dollar — full 5 horsepower, new light weight of only 19 pounds and new low cost. In no other direct drive chain saw will you find so many features *you* want for any type of cutting. Look inside for the ways you can get faster, easier, more profitable cutting with the new Homelite EZ.

CONVENIENT TIME PAYMENT PLAN

Feel the *FLOATING POWER* in a Free Demonstration

Rugged, dependable power for all cutting jobs. Zips through 8" Oak in 5 seconds, 18" Pine in 14 seconds. Cuts trees up to 3 feet in diameter.

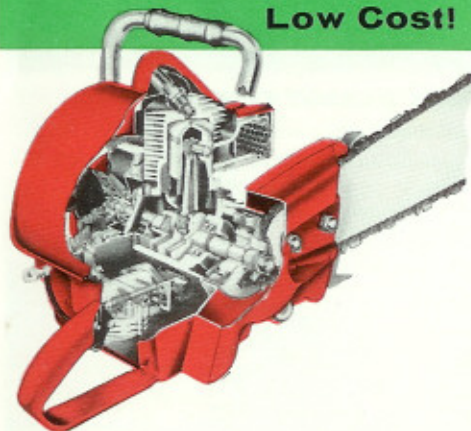

Excellent for limbing and orchard work because it is so light. Easy to use in the awkward, hard-to-reach spots. Floating Power cuts far fatigue.

Cuts up, down, right, left — any position you need in felling, bucking, notching or undercutting. Makes quick work of cutting cordwood, fence posts and pulp.

**The Famous Homelite
Quality at New
Low Cost!**

High Compression, Short Stroke Engine design cuts wasteful engine friction, increases engine life and decreases gas consumption.

Automatic Clutch drives chain only when operator presses throttle . . . chain stops as soon as throttle is released.

Positive Action Fuel Pump plus diaphragm carburetor assures full power operation in any position.

Automatic Governor keeps engine running at proper cutting speed. Prevents wear due to racing.

The **HOMELITE** **EZ** DIRECT DRIVE Chain Saw Does **ALL** These Jobs

HARVESTING WOODLOTS

Make trees a profitable cash crop with the EZ. It offers the right power with the right weight for faster, easier woodlot cutting. Takes trees up to 3 feet in diameter.

CUTTING CORDWOOD

In one hour, one man with a Homelite EZ can cut as much cordwood as two men with a hand-saw can cut in a day. EZ direct drive reduces cut fatigue.

TRIMMING ORCHARDS

Floating Power of the EZ saves labor, time and money in trimming orchard trees. Light enough to carry up a tree, it makes fast, smooth cuts in any position.

HARVESTING WOODLOTS

Make trees a profitable cash crop with the EZ. It offers the right power with the right weight for faster, easier woodlot cutting. Takes trees up to 3 feet in diameter.

CUTTING CORDWOOD

In one hour, one man with a Homelite EZ can cut as much cordwood as two men with a hand-saw can cut in a day. EZ direct drive reduces fatigue.

TRIMMING ORCHARDS

Floating Power of the EZ saves labor, time and money in trimming orchard trees. Light enough to carry up a tree, it makes fast, smooth cuts in any position.

REMOVING DEAD TREES

Estate owners and tree surgeons can cut down and cut up dead trees quickly and economically with the Homelite EZ. The money saved more than pays for the saw.

STORM DAMAGE CLEAN-UP

Wind-blown trees won't block streets or highways with a Homelite EZ on the job . . . quick-starting in any weather, the EZ has enough dependable power to clean up those trees fast . . . without forcing or jamming the saw.

CONSTRUCTION CLEARING

Cut the cost of right-of-way clearing with the Homelite EZ. Cuts through 8" Oak in 5 seconds and 18" Pine in 14 seconds. Light weight and floating power reduce fatigue, permit more productive cutting per hour.

BUCKING SAWLOGS

The Homelite EZ gives you plenty of power for profitable sawlog cutting. All-position, all-angle carburetor gives you full power on any type of cut.

SAWING FIREWOOD

The EZ is a natural for sportsmen — light enough to carry to the campsite, it makes quick work of cutting firewood . . . leaves more time for hunting and fishing.

FLUSH CUTTING

Equipped with flush cut handle, the EZ cuts right down level with the ground. Leaves no ugly, troublesome stump.
