

## HARDWOOD • SOFTWOOD • FROZEN WOOD

The rugged staying power and fast cutting action of the Hornet DJ, One-Man Chain Saw, soon makes the chips fly and the BIG ones fall. This light-weight unit is easily carried to the job and is ready to operate under all weather conditions. 180° blade swivel in either direction, provides a consistent weight balance, that remains unchanged, regardless of the angle of cut. Available in 18"-24" and 30" lengths.

To convert your chain saw to two-man use, a helper's handle is available to fit these lengths.

### THE HORNET MODEL DJ ONE-MAN POWER CHAIN SAW

One-Man unit shown is complete with 24" guide blade and chain.

THEY ALL  
FALL FOR  
HORNET

Two-Man attachment converts 18" - 24" and 30" guide blades for two-man use.

IDEAL FOR TIMBER, PULPWOOD, CORDWOOD, FENCE POSTS, CONSTRUCTION WORK, ETC.

**TWO-MAN CUTTING ATTACHMENT-** this light-weight magnesium helper's handle is quickly attached or removed, by use of a simple hand screw. The hand grip itself may be removed to leave the casting, which protects the end of the guide blade. This attachment fits all guide blade lengths.

Clutch and throttle levers are conveniently located in the handle and can be operated with one hand, for quick control. Lubrication is supplied manually, by a positive pump, which distributes a metered flow of oil to chain and guide blade.

All models come equipped with special chain of heat-treated steel, in standard shark tooth or planer tooth design.
