

STIHL Chain Saws

2.1 cu. in. - 2.5 cu. in.

STIHL Lightweight chain saws are regarded as indispensable tools for both do it yourself enthusiasts and homeowners. Fire-wood cutters and tree surgeons also appreciate STIHL quality, dependability and ease of handling. All STIHL chain saws from the most compact to the large professional models are manufactured to the same exacting standards.

STIHL 009 EQ

9.9 lb. (4.5 kg) 2.3 cu. in. (37 cc)

STIHL 009 LEQ

9.9 lb. (4.5 kg) 2.5 cu. in. (41 cc)

STIHL 011 AVEQ

10.8 lb. (4.9 kg) 2.5 cu. in. (41 cc)

STIHL 011 AVTEQ

10.6 lb. (4.8 kg) 2.3 cu. in. (37 cc)

STIHL 020 AVSEQ

10.6 lb. (4.8 kg) 2.1 cu. in. (35 cc)

STIHL 024 AVSEQ

11.9 lb. (5.4 kg)

2.7 cu. in. (44 cc)

STIHL 028 AVE

Wood Boss

14.4 lb. (6.5 kg)

2.9 cu. in. (47 cc)

STIHL 028 AVSE

14.4 lb. (6.5 kg) 3.14 cu. in. (51.5 cc)

STIHL 034 AVEQ

14.1 lb. (6.4 kg) 3.45 cu. in. (56.4 cc)

STIHL 038 AVE

Farm Boss

17.2 lb. (7.8 kg)

3.72 cu. in. (61 cc)

STIHL 038 AVSE

17.2 lb. (7.8 kg) 4.1 cu. in. (67 cc)

STIHL 048 AVE

Pro-Former

19.8 lb. (9.0 kg) 4.7 cu. in. (77 cc)

STIHL 048 AVSE

19.8 lb. (9.0 kg) 4.7 cu. in. (77 cc)

STIHL Chain Saws

2.6 cu. in. - 3.72 cu. in.

The saws in this group are famous for their power to weight ratio. STIHL saws are "human engineered" for operator comfort helping to reduce user fatigue. This makes these saws ideal for tree felling, limbing or bucking.

Options available

- Ⓛ Electronic ignition (designated by "E" after model number standard)
- Ⓚ Quickstop™ chain brake (designated by "Q" after model number standard)
- Ⓜ Heated handles

Important Information

Chain saws are valuable, time-saving tools but must be handled with respect, as any other power tool. Always read owner's manual carefully before using your saw. The occurrence called "kickback" can cause a serious or fatal injury. Ask your STIHL dealer about safe operating procedures and the advantages of reduced kickback bar and reduced kickback saw chain.

STIHL Chain Saws

4.1 cu. in. - 8.4 cu. in.

STIHL production saws are used by professional cutters all over the world. They are designed for medium to big timber, pulp or hardwoods and hot or cold climates. All STIHL production saws are equipped with fully adjustable, automatic oilers to insure correct lubrication in any cutting situation.

STIHL 056 AVE

Pro-Former

21.2 lb. (9.6 kg) 4.9 cu. in. (81 cc)

STIHL 056 AVSE

24.2 lb. (9.6 kg) 5.3 cu. in. (87 cc)

STIHL 090

30.7 lb. (13.9 kg)

8.4 cu. in. (137 cc)

STIHL Electric Saws

STIHL electric saws are used primarily for home building, carpenter shops and sawmills; areas that require cutting operations but are not sufficiently ventilated for gas powered saws. The "quiet running" electric motor is also an important feature under many operating conditions. STIHL electric saws are run off a normal power outlet - the extra heavy duty model E-30 requires a three-phase power supply.

STIHL E 14 Q

8.6 lb. (3.9 kg)

110/220 volt,

single phase

STIHL E 20 Q

13.2 lb. (6.0 kg) 110/220 volt,

single phase

STIHL E 30

36.1 lb. (16.8 kg) 220/440 volt,

three phase
