McCulloch

Mini Mac 30

Mini Mac 30 AMERICAN FAVORITE, SUPER LIGHTWEIGHT

- Zips through an 6" log in 5-seconds.
- Fun, easy to use. Weighs just 7.0 pounds.*
- Pays for itself. Cuts firewood, trims trees, builds patio furniture.
- 12" bar and chain saws log two feet thick.
- Oils its own bar and chain as you cut.

McCulloch Mini Mac chain saws are the world's most popular. And the Mini Mac 30 is the best buy ever. It's chock-full of features, yet weighs just a scant seven pounds.* And that's important. When you're hefting saws in a store you don't notice much difference in weight. But when you're out there cutting even a half pound makes a great difference.

And you'll like the feel of this super lightweight. It's more like using an electric carving knife than a chain saw. The "Master Grip" handle is placed directly over the center of gravity for one-hand control between cuts. All controls are a finger's reach away. This design makes it easy to start and use. Just grab the "Master Grip" handle in one hand and pull the starter rope with the other.

Each Mini Mac 30 is started and tuned before it is packaged to insure dependability and comes complete with bar and chain adjusting wrench / screwdriver tool. McCulloch warranty and owner's manual.

Easy one-hand control. Our "Master Grip" handle is directly over the center of gravity so the saw is always in perfect balance. This means you can control the saw with just one hand between cuts while the other hand is free to clear away limbs and branches.

McCULLOCH CUSTOM LUBRICANT

A significant breakthrough in 2-cycle engine lubricants. It mixes with gasoline 3 times easier than conventional SAE 30 wt. oils at all temperatures, even down to -60 F. Yet it does an excellent job of lubricating, use it at 40 to 1 gas/oil ratio. It features superior scuff-resistance, minimizes carbon deposits, rust and wear under all operating conditions. Best for chain saws, outboards, snowmobiles, motor cycles, lawn mowers and industrial use. And it's approved by the Boating Industry Association — meets or exceeds all of their standards.

McCULLOCH CHAIN, BAR & SPROCKET OIL

Special anti-wear formula can give up to double chain life. Special "MOLY" additive gives extra lubrication protection during critical first seconds of cutting. Extra "tackiness" makes oil cling to chain at high speeds for better lubrication, less waste. Also contains new "anti-gum" additive to keep cutting fast and smooth even in green, sappy wood.

FEATURES AND SPECIFICATIONS:

MINI MAC 30	
Weight*	7.06 lbs. (3.17 kg.)
Guide Bar	12"
Overall Dimensions (outside frame)	8 1/2" L x 9 3/4" W x 7 1/4" H (216 x 238 x 194mm)
